

Heat-transfer label – E. Textint

Reflective tape – JRC Reflex

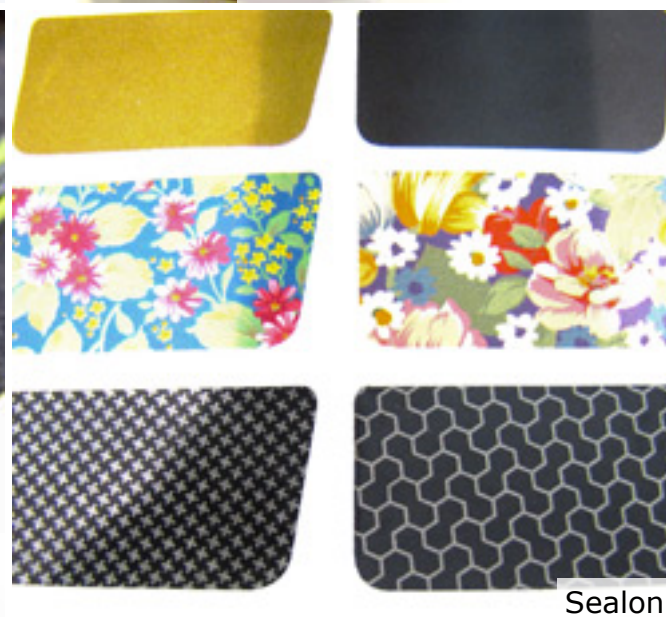

Waterproof zipper – Eso Zippers

Reflective 3-D heat transfer – Regine

ACG Accent Fluorescent zipper – ACG Accent

Sealon

Neon reflective tapes – JRC Reflex

Fluorescent matte yarn – Madeira

Among activewear trims and embellishments, functional yet fashionable details emerged.

Waterproof printed zippers / High visibility zippers with fluorescent threads on teeth / Highly durable heat-transfer labeling for water-repellent fabrics / High visibility labels with reflective 3-D effects / Special heat-transfer technologies (for labels and printed logos) avoid cool migration even on sublimation fabrics (E. Textint) / Chlorine- and bleach-resistant embroidery threads and fluorescent 96% polyester/4% ceramic threads with matte finishes (Madeira) / Waterproof seam-sealing tapes (Sealon)

EDITOR'S CHOICE

DYNTEX (AUSTRIA)

www.dyntex.eu

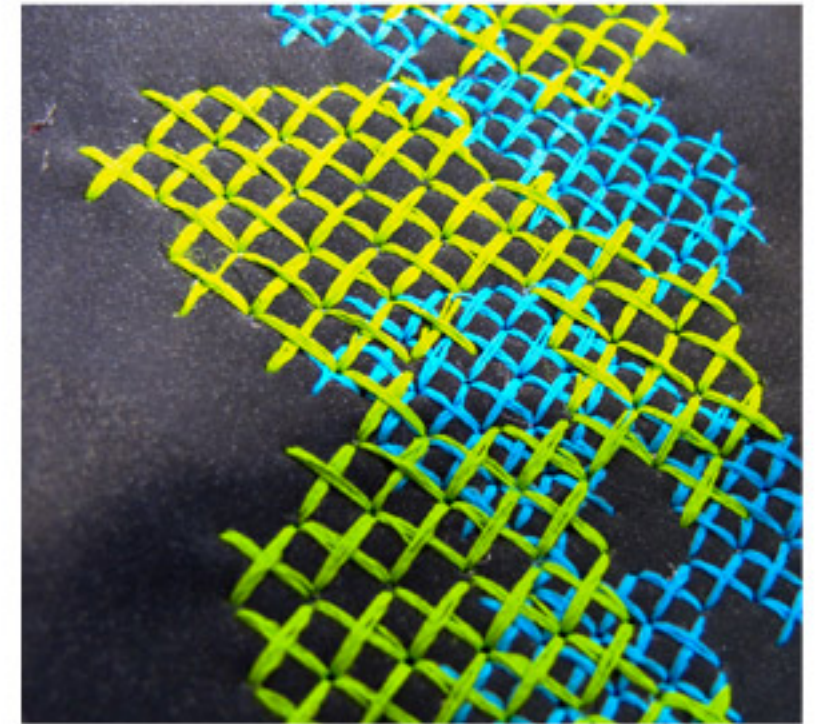

Fancy and functional down by Dyntex (in partnership with Kauffmann) is truly unique. Colored down has never been this functional (hygienic and antibacterial) or appropriate for bulk production. Dyntex's down concepts are creating a new era for puffers.

ESF BY PAYEN GROUP

www.groupepayen.com

ESF (European Stretch Fabrics), an outfitter of numerous Olympic athletes, introduced the industry's thinnest bi-elastic fabric at Performance Days. It also featured its Aquatech® (for sport and high-level competition) and Mad About Skin® (for lingerie and swimwear) products. Pushing glamour this season, the firm's latest collection includes polyester non-itchy yarns with metallic sprinkling effects.

MADEIRA (GERMANY)

www.madeira.com

An inspiration to designers of activewear and beyond, Madeira scored high, featuring the world's first truly opaque and lightfast embroidery thread with a unique ceramic core. These high-quality threads will bring zesty colored detailing to active and sportswear silhouettes.
