

FROSTED MATT 40

MADEIRA seamlessly continues with its innovations!

Thanks to the sensationally different appearance of FROSTED MATT, more and more users from all sectors are regular buyers. Whether for logos, embroidered text, designs of all kinds, for all areas such as sports, fashion, work clothes, home textiles etc. FROSTED MATT is becoming a firm favourite.

FROSTED MATT on its own or combined with other threads such as CLASSIC shiny viscose, POLYNEON polyester, or the various metallic threads from the extensive FS / SUPERTWIST range, creates striking highlights in embroidery.

Our enlarged selection of 189 beautiful colours, including stunning neon shades, now offers even more creative freedom!

This thread is especially eye-catching when used for decorative stitching and also attracts new fans from other areas of application.

High light fastness is a key feature of this thread and its structure creates extremely sharp contours. Because it is polyester, FROSTED MATT'S chlorine resistance means it naturally lends itself to many fields of application.

We could list many more reasons; though those familiar with this thread already know its special features and whoever
